Master of Education (MEd)

Educational Technology Program of Study Planning Sheet

Department of Instructional Technology & Learning Sciences
Utah State University

Overview: This program is specifically designed for public school teachers and administrators who want to increase their understanding of the role of technology and its appropriate implementation in the teaching and learning process. The Educational Technology (EdTech) Master's program can provide career advancement and technical confidence. The program mission is to help individuals design, integrate, and implement various forms of technology and instructional design skills into their current and future teaching and administrative assignments.

Program: The expected timeline is six semesters to complete a program of study with a minimum of 36 credits. In addition to completing the listed coursework and culminating experience, students are required to **complete a portfolio** to submit to their chairperson by the end of their final semester.

Required Courses Sequence (33 credits)			Credits	Fall	Spring	Summer
First Summer Semester						
ITLS	6300	MEd Orientation – *in Logan*	1			f2f
First Fall Semester

ITLS	6900	Independent Study	1-6	arranged	arranged	arranged
ITLS	6910	Independent Research	1-6	arranged	arranged	arranged
		Other courses approved by your advisor or chairperson				

The Program of Study is under the direction and approval of the program advisor and graduate chairperson. The above is the expected sequence for courses in this cohort. Each student works with the program advisor (currently, Sheri Haderlie) to establish a Program of Study and obtain graduate school approval. A graduate chairperson from the ITLS department faculty should be chosen by the student by fall semester of the second year. Students work with their chairperson for their culminating experience and their portfolio.

Note: No more than 15 semester credits of 5000-5999 coursework may be used for a master's degree. No more than 12 workshop credits may be applied to a master's degree. A maximum of 12 credits of previous coursework before admittance into the program may be applied to your program. These credits cannot have been used for another degree, endorsement, or certification.
